

Squannacook Greenways wins \$10,000 grant from Bruce J. Anderson Foundation

Squannacook Greenways wins \$10,000 grant from Bruce J. Anderson Foundation

Squannacook Greenways is pleased to announce that they were awarded a **\$10,000 grant** from the Bruce J. Anderson Foundation in July 2016. This grant will go directly toward the construction of the stone dust Squannacook River Rail Trail. With this \$10,000 grant, the capital campaign has now raised more than \$57,000, well more than a third of the way to our goal of \$150,000.

Informed by intelligence, sensitivity, and the knowledge of many countries and cultures, Bruce J. Anderson was a serious and idealistic young man who cared deeply about the problems he saw around him. The Bruce J. Anderson Foundation was established in 1980 by Bruce's brothers and sisters to honor Bruce and support the causes he championed. Squannacook Greenways, with its goal of making life better and more active for all residents, but especially younger ones, is proud to have been chosen to receive this grant.

We still need your help!

The Squannacook River Rail Trail is being built by a non-profit, and our total construction budget of \$150,000 includes **no town or state money** - grants and fundraising alone are being used to build this trail. Want to help move up the construction date? Click on the [Buy a brick!](#) button below, and for \$150 you can help leave a legacy that generations of people who grow up and live in our two towns will thank you for - the Squannacook River Rail Trail! And also keep tuned for more volunteer days and trail walks planned for this fall, as we work to make the rail bed a nice walking path in preparation for stone dust rail trail construction.
