

Donate a brick sale opens for April 2021

Our [donate a brick fundraiser](#) is open again for the month of April - last chance for bricks in Townsend

Now that the first section of the Squannacook River Rail Trail is nearly complete, we are planning to install all the donated bricks designated for Townsend in early summer 2021, as soon as the parking area at Depot Street is complete. A number of people have asked for a final opportunity to donate a brick before we install them, so we decided to reopen this fundraiser from now until **April 30, 2021**. The money raised will be used to help build the rail trail in the final year of construction, 2024. The donation of \$150/brick is fully tax deductible.

We expect the first section of the rail trail, from Depot Street to Old Meetinghouse Road in Townsend to be fully open by the end of April. We encourage everyone to come see what a great job Shepherd's has done building this rail trail!

Pictured at left: Our top quality control expert checking out bike riding on the new rail trail. Verdict - two thumbs up!

Donate a brick!

Check out the bricks that have already been donated [here](#).

Phase 2 plans announced
